Hi Denise,

Can I please get a copy of Amanda's IEP? I don't believe I have received a copy yet. I heard about her awoling from the classroom yesterday and her being picked up by the Sheriff's Dpt. Can you please tell me the circumstances around the awol and actions taken? How has she been over the past week or so?

Thanks so much,

Christine Bass

Method: In-Person Location: Other Status: Completed

CFT at Parents by Choice-

Present- Erin (ICC worker) by phone, Nikki, FM, Cinthia, Rose Marie-Sw Superivsorm, CFS SW

Fm and Amanda came directly from Children's Crisis. Amanda walked in with fm and she was smiling. She was holding her lunch bag. Amanda waited in the children's room.

Per Fm, Amanda is trying to get her voice across to the social workers. It started when Nikki came over on Wedn to FH and she had to make a phone call to dad. That is the whole thing that started to upset her

Per FM, she has been coming home, happy, being her silly self. Ever since that day, I've been having difficulty

When Nikki left, Amanda was outside with the dogs. She was upset and wanted to calm down. When she came back in, she was really quiet, which was abnormal.

She hates sw's coming here and forcing her to talk to her dad- Amanda has said this.

She has said if she moves with him, she is going to die. Sw asked where the idea of her living with dad came from??? Sw has not talked with Amanda about living with dad.

Per Nikki, we made the pc to dad, but he didn't answer. I had it on speaker phone. He has callback....with classical music playing. She was laughing about the music. She seemed okay.

Per Nikki, we finished our visit and she seemed okay.

Per Fm, Amanda has said, if she moves with dad, she will never be able to live with mom which is what she wants.

Per Rose Marie, the school has called me a couple of times about her behavior. On 1 occasion, she as lying on the floor in gym and wouldn't get up. It took about 5 staff to get her up. Another time, they didn't feel they could put her on the bus because there had been a prior incident on the bus in which she was acting out and they had to pull the bus over. They will now not put her on the bus if she is upset

for safety precautions.

Denise

Per school, she is loud, no one can calm her down

Per fm, on Friday, she didn't go to school bc she felt sick. In looking back, maybe she was not feeling well bc of how she was feeling/emotions abt dad.

Although, fm said she was having a runny nose on Friday.

Last Thursday, there was some inc. at school. Everything was fine until last Wedn
She is upset that the sw's are forcing her to call dad.

She was calm and okay on Friday when she stayed home. Did puzzles, art work, etc.
She was good.

We had a garage sale on Sat. She was smiling and talking to customers.
She had a great day and seemed to really like it.

On Sunday, I could tell something was bothering her. She ran off I had called 911.

When asked why she was upset, she said she was having bad memories of her dad.

FD and police found her a couple of blocks away. She didn't want anyone to catch her, so she put herself to the ground, she had her blanket with her and put it over her head. She said no one ever listens to me, no one understands me, I just want to die. FM met them there, Amanda got into her car, brought her home and she calmed down. That is when she said she had bad memories of her dad.

She may have been gone, max of 15 mins, on Sunday

Today, per fm, the clinician at Children's Crisis said she may have been upset today bc of the meeting with the sw (scheduled CFT)

Today, school notified FM around 9:05 am that she took off.

FM has not heard from Tya (new therapist)

ICC worker is going to request 2x/week therapy sessions. > Where is Tya?

Considering request for TBS services, but I believe the therapist needs to assess first and begin working with Amanda before a TBS referral can be made.

Amanda is not feeling like she is being heard.

What about relationship with her dad? We see this strong reaction from her with these pc's with dad.

Per fm, Amanda said "my mom hates social workers and I do too." ON

Amanda wont talk to Cynthia (person monitoring supervised visits with mom) anymore, ever since facilitating visits/pc's with dad

Are we forced to facilitate visits or pc's? Sw explained she can try to address it at court tomorrow and again explained the judge wanted them to happen.

Per Nikki, I explained to Amanda that we have to call but we aren't going to force her to talk.

Per Fm, I'm trying to keep it a safe and healthy home for her. I don't want calls to dad to be made at the house. It is stressful for her. After the pc, she had trouble sleeping. Now she wants to sleep with light on when before, she wanted darkness.
